What is a map?

A map is a picture of a place, usually drawn from above.

They can be drawn at different scales to show different features.

How can we navigate a map?

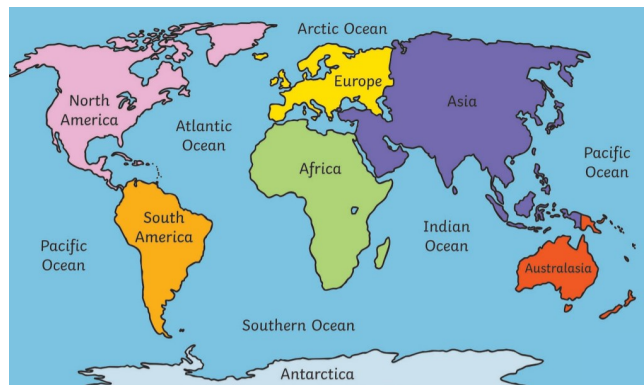

Why do we use map symbols?

We use map symbols to represent different human and physical features

What are the seven continents and five oceans of the world?

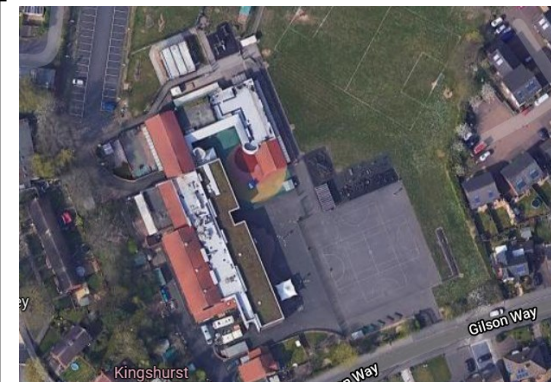

The Five Oceans

- Pacific Ocean
- Atlantic Ocean
- Indian Ocean
- Southern Ocean
- Arctic Ocean

The Seven Continents

- North America
- South America
- Europe
- Australasia
- Antarctica
- Africa
- Asia

What can an aerial photo show us?

Aerial photographs help us to see human and physical features from above.
