

Thursday 27th January 2022

LO: To write a chronological account of an ice investigation

Success Criteria:

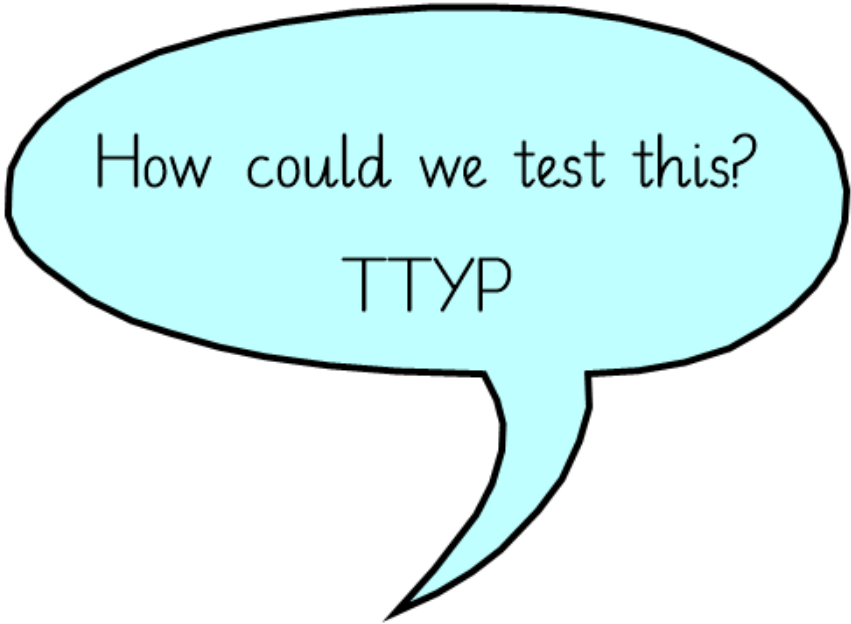

Must: sequence what we did using time conjunctions

Should: choose suitable verbs to describe our actions

Could: use adverbs to add detail to our actions

What makes ice melt the fastest?

How could we test this?  
TTYP

We are going to test the three things that were near to the ice in the story The Way Home for Wolf

warmth (from the sun)

salt (in the sea)

water

Write a chronological account of your ice investigation

**Purpose:** to show what you did and then what you discovered

**Audience:** other groups in the class

What to include

Equipment/resources – What did you use?

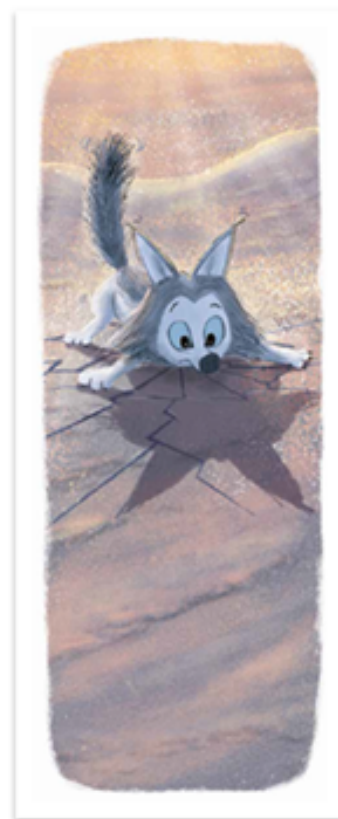

Method – What did you do at each stage?

1

2

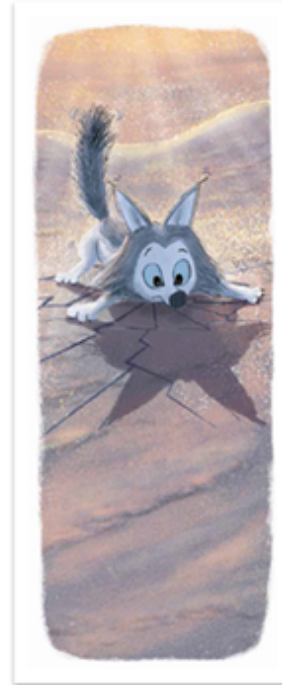

3

Findings – What did you discover?

Write a chronological account of your ice investigation  
Must: sequence what we did using time conjunctions

Equipment

Must: sequence what we did using time conjunctions

\_\_\_\_\_ we got the equipment ready.

First...

Next...

Then...

After that...

Later...

Should: choose suitable verbs to describe our actions

Next, we \_\_\_\_\_ the three lumps of ice ready to be tested using salt, warmth and water.

arranged

checked

cooled

froze

melted

observed

placed

sprinkled

tested

warmed

Could: use adverbs to add detail to our actions

Next, we \_\_\_\_\_ arranged the three lumps of ice ready to be tested using salt, warmth and water.

accurately

carefully

gently

precisely

slowly

thoroughly
