

Year 4: Local Area Study-Coleshill

Key Vocabulary

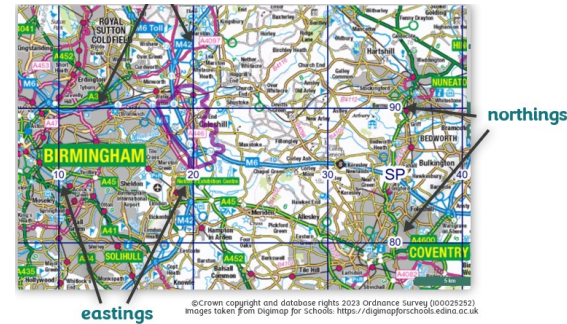

cartographer	a person who collects geographical information about an area in order to produce a map.
commercial	areas where businesses are located e.g. shops and offices
industrial	areas where factories are located
ordnance survey	a special type of map that shows human and physical features of an area.
recreational	an area of land used for enjoyment e.g. parks, cafes and cinemas
residential	an area of land used for homes

Where is Coleshill?

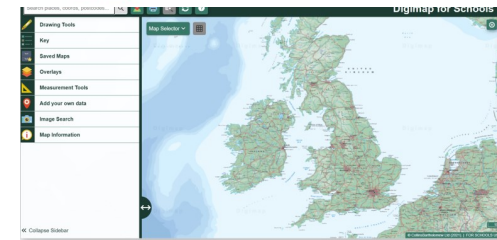

Coleshill is a locality in the UK

You would not be able to find Coleshill on a world map or globe because they do not label all settlements in a country,

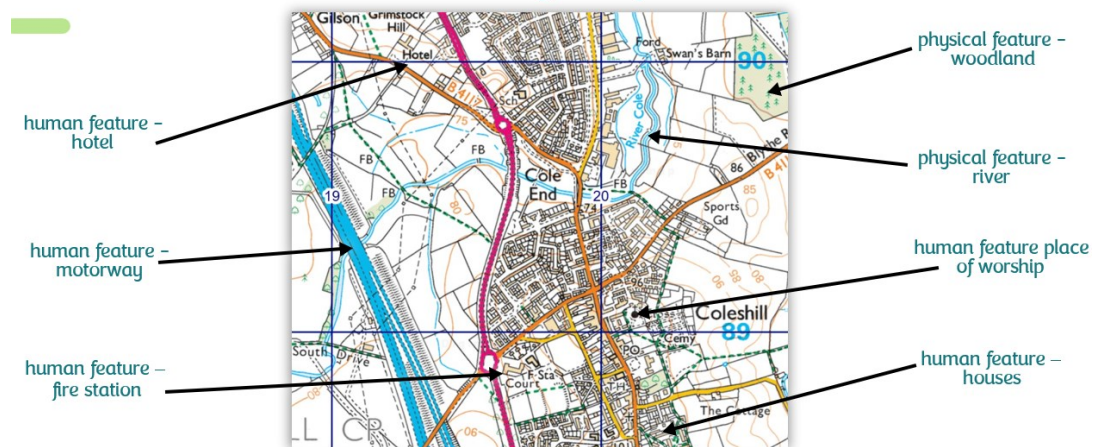

An atlas can help us to locate Coleshill because these maps show much more detail of a smaller area.

Digital maps can zoom into a small locality to show more detail or zoomed out to show a wider area.

What are the geographical features of Coleshill?

How is land used in Coleshill?

Recreational	Residential	Public Buildings	Commercial	Industrial	Transport
parks sports ground leisure centre cafe restaurants	houses flats	schools library town hall place of worship	shops offices banks	factories warehouses	roads carparks railway station railway lines.
