

Year 1 - Field Work—Our School Grounds and the Local Park

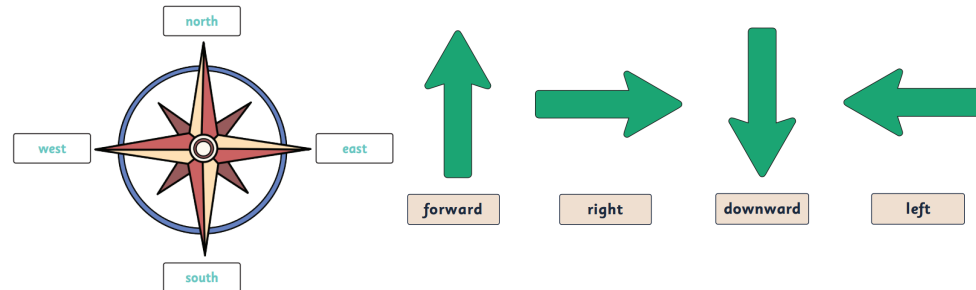

Key Vocabulary

Aerial View	
compass	a tool used to help find directions
directions	the path that something takes to reach a place
fieldwork	when you go outside and investigate a place
local area	the place that you live
map	a diagram showing places and their features
route	a way to travel from one place to another
Street names	Buildings are usually placed along streets.

Where in our school could we encourage plant life?

How can we share the location of things?

How are places represented on maps?

Most maps are smaller drawings of a real place. They use symbols to make them easier to read.

Where is our local park and how do we get there?

A route is a way to travel from one place to another. We can call your starting place 'Point A' and your finishing place 'Point B'.

Our school: Kingshurst Primary school

Our local park
