

Parent & Carer Information Sheet

At Prosper Together Multi Academy Trust, we are committed to nurturing each child's growth and success through our Flourishing Futures Programme. This transformative programme is designed to inspire ambition, develop essential life skills, and broaden pupils' understanding of the world around them. Children will begin collecting points from Reception through meaningful experiences and skill-building activities.

What is the Flourishing Futures programme?

The Flourishing Futures Programme is a trust-wide initiative where children earn points for participating in enriching activities that contribute to their personal growth and development.

These activities include:

- Career-themed Flourishing Futures sessions
- Extracurricular Clubs
- School Trips and Workshops
- Community Engagement Projects
- Leadership and Teamwork Opportunities

Points are logged throughout the year and accumulate as your child progresses through their school journey. These points are designed to reflect the development of key skills and participation in a broad range of activities that enhance learning beyond the classroom.

Skills For Life Framework

The programme is underpinned by the Skills for Life Framework, which is built around the development of seven essential skills:

Oracy - Confident communication and effective expression.

Teamwork - Collaborating effectively with others.

Leadership - Guiding and inspiring others with confidence.

Innovation - Using creativity to develop new ideas and solve problems.

Staying Positive - Demonstrating resilience and a growth mindset.

Aiming High - Setting ambitious goals and working hard to achieve them.

Problem Solving - Tackling challenges and finding solutions.

These skills are woven into every aspect of the programme to help children flourish academically, socially, and emotionally.

Graduation Levels

Each year, children's points are celebrated at a Trust-Wide Graduation Event where they receive a Certificate and a Wristband to signify the level they have reached. The graduation levels are aligned with precious stones to represent growth and achievement:

	Quartz Level	= 50 points
	Amethyst Level	= 100 points
	Topaz Level	= 200 points
	Emerald Level	= 300 points
	Ruby Level	= 400 points
	Sapphire Level	= 500 points
	Diamond Level	= 600 points
	Fellowship	= 600+ points

The graduation event brings together children from all Prosper Together schools, celebrating their dedication, achievements, and growth over the academic year.

Join us in celebrating success!

We are excited to partner with you to support your child's journey through the Flourishing Futures Programme. Every point earned, every skill developed, and every milestone reached is a step towards a brighter future.

If you would like more information, please do not hesitate to contact your child's school or visit our website for updates and announcements: www.prospertogethermat.org.
